FastReply Signature

QUICK GUIDE

To complete.
To sign.
Already organised.

Your documents online, from the first field to the signed PDF.

The customer opens a link, completes and signs on screen. They receive the PDF by email; you find documents and data in an archive you can consult and export.

Illustration of the workflow, not a software screen.

No app for the customer. No account to create for signing.

Four steps, one workflow

1. Prepare

Start from your text or a template. Add your logo, fields and signature.

2. Share

Send the link by email or WhatsApp, or display the document's QR code.

3. Have it completed

The customer reads, completes and signs in their browser, including on a smartphone.

4. Find

PDF emailed to the customer. For you, archive search and PDF and data exports.

Less paper.
More room for your work.

Different documents, the same workflow

Registrations, waivers, releases, notices and consent, contracts and declarations. Adapt texts and fields to your business's needs.

Sport and associations · Events and training · Rentals · Businesses and HR
Estate agencies · Construction · Hospitality · Diving and outdoor activities

Useful features, every day

Fields and prefilled data

Ask for the data needed and prepare what is already available. You can lock values the customer must not change.

Documents in five languages

Italian, English, Spanish, French and German. Prepare the translations; customers choose from those available.

Search and export

View signed PDFs, search collected data and export it to Excel. Already signed PDFs do not change if you modify the template.

Teamwork

Multiple operators, roles and permissions, shared credits and two-factor authentication. Signature can also be used independently.

Try it with 20 free signatures

For businesses, no credit card required. Then buy pay-as-you-go credits:
1 credit per signed document, no subscription or expiry date.
Exception: each Boat Sheet download for diving centres uses 2 credits.
